

## Preamble

The Trakhees-EHS “Design & Development Regulations”, for all areas falling under the jurisdiction of “TRAKHEES” provide broad standards to ensure a high level of safety to people, property, and environment, against hazards associated with the operations as per the client’s licensed activities.

The regulations have been framed to include/provide EHS aspects pertaining to planning, design, construction, restoration, modernization of the clients infrastructure and sustainability of their business.

All Relevant international standards, regulations & guidelines, viz. “Health & Safety Executive (HSE - UK), OSHA, NFPA, IAEA, API, ASME and ASHRAE” are to be considered as baseline/reference for all the operations as per the client’s licensed activities.

EHS personnel are authorized to visits all facilities/operations in its jurisdiction to ensure that the standards, regulations & guidelines are being complied with. In case of any violations to these, regulations & guidelines are observed during these visits, will be brought to the attention of the company’s senior management & immediate corrective action as per EHS recommendations shall be required.

The regulations are also periodically reviewed, updated and made available to the stakeholders as part of EHS responsibility. We look forward to your co-operation to enhance environment, health & safety standards.
