

Circular : EHS/EN/01/13
Date : 7th March 2013
To : All concerned Trakhees' Clients and Dubai World Business Units
Subject : **Red Tide Alert**

Kindly be informed that as per the Ministry of Environment and Water (MOEW) there is a possibility of red tide phenomenon in coastal areas of the United Arab Emirates in the Sea of Oman. According to the report, there is a presence of certain biological organisms resulting to the release of chlorophyll pigments. Continuous monitoring of the situation is currently on-going.

With this, all are hereby advised to be vigilant and to direct any related incidents to this Authority.

Dr. Hamad Al Falasi
Manager – Environment Department
Environment, Health and Safety (EHS) – Trakhees
